# MORE POWER TO YOU

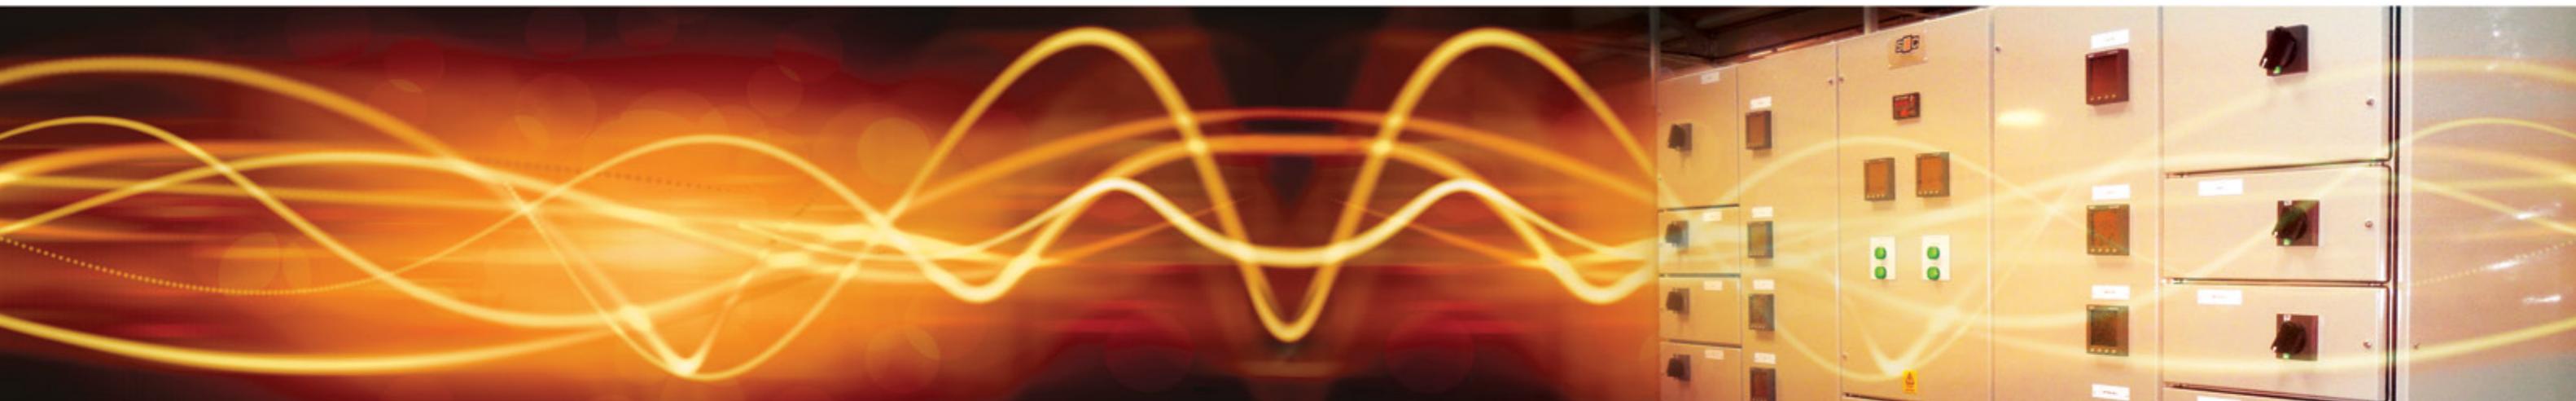

When smooth and reliable power is critical to your operation, Select Switchgear & Control can design, manufacture and support the hardware at the centre of it all.

From Control Panels and Switchgear to Auto Changeover Systems and Power Factor Correction Equipment, Select Switchgear & Control can create a solution that perfectly matches your needs.

And for the ultimate in efficiency and reliability, you can even call on us to create a complete custom Package Substation. By employing flexible modular construction with minimal cabling and reduced civil costs, we'll help you get maximum performance for the minimum outlay.

*We specialise in:*

- SWITCHGEAR
- CONTROL PANELS
- POWER FACTOR CORRECTION EQUIPMENT
- AUTO CHANGEOVER SWITCHGEAR
- BUSBAR SYSTEMS
- POWER DISTRIBUTION UNITS (PDU's & IPDU's)
- GENERATOR SWITCHBOARDS
- LOW VOLTAGE (LV) SWITCHGEAR
- UPS BOARDS
- CONTAINERISED SWITCHGEAR
- INTELLIGENT SWITCHGEAR (IBoARDS)

# OUR SERVICES

## *Design*

With wide-ranging experience and an expert team, Select Switchgear & Control can work with you to create a system that does exactly what you need it to. Our encyclopaedic knowledge of both materials and manufacturing processes mean we can help you bring your system in on brief, and on budget.

## *Manufacture*

Built “in-house” by our team of highly skilled technicians, your switchgear and control panels are guaranteed to stand up to the latest industry standards. What’s more, we’ll liaise with you throughout the build to ensure that your requirements stay at the very top of our agenda.

“We have employed Select Switchgear & Control Ltd for the past 3 years as our preferred LV Switchboard manufacturer, during this time we have completed numerous large contracts which have been completed to a very high standard. During this time we have found Select Switchgear produce a high quality product.”

Mr Paul Sidson ACIBSE, National Grid Project Manager, 101 Regents Road Leicester.

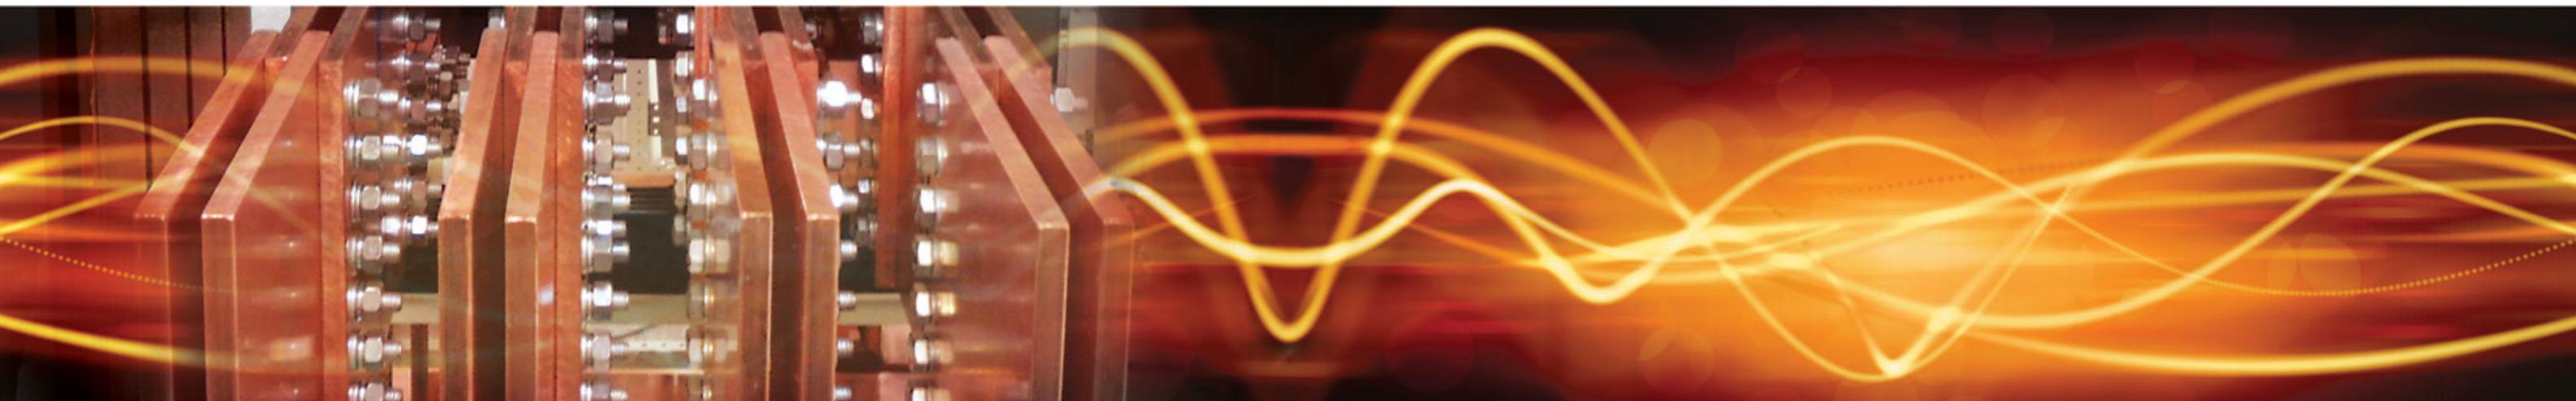

“We write to express our thanks at not only the quality of the LV Switchboard that you delivered to the site, but the team you had carry out the site positioning and installation of the panel. Your team are a credit to your company and we would wish you to pass this letter on to them for the great job they did installing the panel in such spacial constraints”

Dominic Harman, Managing Director, John Carter (Salt Lane) Ltd.

Complex switchgear and control panels need to be rigorously tested before you know you can trust them to deliver their full potential. Using our expertise and experience, we can test, check and verify every element of your switchgear system to ensure faultless operation... and we can provide you with method statements, risk assessments and even operating instructions.

## *Maintenance*

Our ongoing Preventative Maintenance Programmes deliver security and peace of mind – guaranteeing you minimal down time and maximising the operational efficiency of your LV switchgear for a very modest investment. And should your switchgear fail, you can call on our team of experienced engineers to attend on site, diagnose the issue and provide a fast and effective remedy, keeping downtime to an absolute minimum.

## 5 REASONS TO CHOOSE SELECT SWITCHGEAR & CONTROL

### 1. *You'll struggle to find better value for money...*

You don't want "cheap" switchgear... but you want value for money. Our completely custom solutions mean you never pay for features you don't need; and our buying power means we can source great deals and pass the savings on to you.

### 2. *Encyclopaedic knowledge you can depend on...*

From our sales team to our technicians and engineers, you'll find a mine of information at your disposal. From advice and guidance on the best solution to meet your needs to ongoing support, technical development and further customisation, we have the knowledge and the ideas to make it happen.

### 3. *Complete full-range service, all in one place...*

Select Switchgear & Control can design, manufacture, install, test and maintain your switchgear and control panels. We can custom modify switchgear from just about any manufacturer so that it better suits your needs – and we can even upgrade our own previous systems. Why invest in new switchgear when we can help you get more mileage from your current system?

### 4. *Maximum service, minimum fuss...*

For years, we've designed and installed thousands of switchboards and control panels for all markets. It's the heart of what we do ... and we're good at it! To you, that means getting the ultimate solution with the minimum disruption to your business. Fast installation, rapid (but thorough) testing, and all the support you need.

### 5. *Cast-iron Guarantee...*

Every solution we provide is backed by our comprehensive 12 month warranty. Of course, we don't expect you'll need it, but your peace of mind is assured with the knowledge that should the slightest fault occur, we'll be there to fix it for you.

*Customer satisfaction is key, this is why our customers come back time and time again. Call Select Switchgear and Control now on **0116 278 7776**.*

## WHAT OUR CLIENTS SAY

“Following the weekend shut down, I thought it only right to drop you a line to thank you and the guys for the work undertaken. John Denham and Terry McDonagh work non stop, throughout the day, without getting frustrated, despite the inevitable ‘looking over shoulders’ scenario you get when carrying out a task of this nature over a weekend period.”

Tony Padovano, Impact Building Services Ltd.

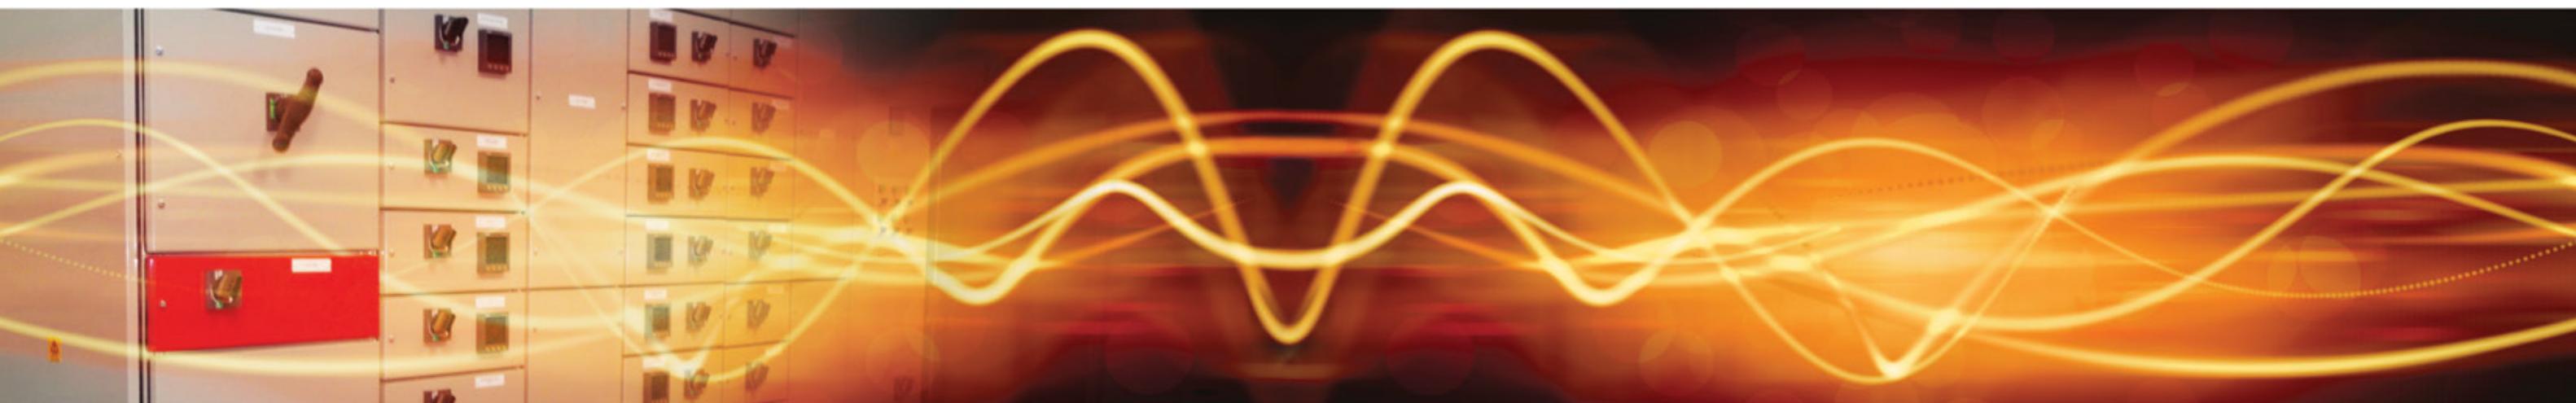

“In my role as project manager for data centre essential M&E services, I can testify the Select Switchgear & Control Ltd have undertaken significant works to our electrical distribution panels under both planned and emergency circumstances. The technical and practical expertise displayed was impressive, any problems that arose were quickly resolved and deadlines met”

Mr David Burton, Capital One Project Manager, Nottingham.

SSC adhere to all relevant standards such as Accreditation to ISO 9001:2000, 14001:2000 and ASTA certification, all of which demand strict control and auditing of procedures used throughout every aspect of company operation.
